

REAL TIME BREACHES & ATTACK DATA

# Full-Spectrum Threat Intelligence For The Financial Industry

## Proactively detect and respond to the threats putting your customers, employees, and supply chain at risk.

Financial institutions are prime targets for cyber criminals due to the high value of both customer data and financial systems. HackNotice delivers real-time, actionable dark web intelligence that helps banks, credit unions, and financial services organizations detect fraud, stop account takeovers, and secure their digital ecosystem—before attackers strike.

With customized monitoring and continuous threat visibility, HackNotice empowers finance security teams to stay ahead of evolving threats.

### Within days of onboarding, HackNotice will

- ✓ Detect and monitor for compromised dark web attack data and users infected with infostealer malware.
- ✓ Provide continuous threat monitoring and real-time ransomware & data breach alerts for your supply chain.
- ✓ Strengthen your dark web threat hunting and incident response with unrestricted search access to our comprehensive index.

## Proactively mitigate dark web and supply chain threats with AI-Powered Threat Intelligence

### Protect Customer Accounts

Detect exposed customer credentials in real time, including banking usernames and passwords, to proactively prevent fraud loss and customer account takeovers.

### Financial Fraud Detection

Monitor your card-issuing BINs for leaked credit card numbers and dark web sales activity to rapidly identify fraud trends and compromised card batches.

### Mitigate Employee Account Take Over

Identify when employee credentials are stolen by infostealer malware, helping prevent Business Email Compromise (BEC), internal fraud, and unauthorized access to financial systems.

### Supply Chain Threat Monitoring

Continuously track breaches, ransomware attacks, and trafficked data related to your third-party vendors and partners, enabling risk-based prioritization and remediation.

“We’ve been really happy with the service. Last month alone, you provided us with 12 actionable alerts.”
