

REAL TIME BREACHES & ATTACK DATA

Full-Spectrum Threat Intelligence: Supply Chain and Dark Web Threats

Actionable, real-time intelligence curated by dark web experts.

What if cybercriminals quietly seized your most valuable data and trafficked it across the dark web, or if your vendor incurred a ransomware attack today? How would you know?

It's more challenging than ever to monitor your dark web threat surface and fend off supply chain attacks — **but HackNotice makes it easy.**

HackNotice empowers organizations with actionable, real-time threat intelligence sourced directly from hundreds of sources, including dark web forums, telegram channels, ransomware gangs, and more.

Protect your business, employees, partners, and customers with our customizable workflows that seamlessly integrate with your existing security tools, minimizing alert fatigue, and streamlining security operations.

Within days of onboarding, HackNotice will

- ✓ **Detect and monitor for compromised dark web attack data and users infected with infostealer malware.**
- ✓ **Provide continuous threat monitoring and real-time ransomware & data breach alerts for your supply chain.**
- ✓ **Strengthen your dark web threat hunting and incident response with unrestricted search access to our comprehensive index.**

Strengthen your dark web and supply chain defenses with AI-Powered Threat Intelligence

Comprehensive Risk Visibility

Monitor your entire ecosystem—including your organization, vendors, and customers—providing full visibility into dark web, ransomware, and data breach cybersecurity risks.

Rapid, Actionable Insights

Receive precise, timely alerts and expert guidance to prioritize incidents and respond effectively, ensuring your team is always informed and ready.

Exhaustive Data Sources

Leverage intelligence from hundreds of global dark web forums, Telegram channels, ransomware gangs, official disclosures, news articles, threat actors, and more for unmatched threat detection.

Customized Alerts & Integrations

Seamlessly integrate relevant and actionable threat intelligence into your existing security operations, ensuring rapid response and streamlined workflows.

“We’ve been really happy with the service. Last month alone, you provided us with 12 actionable alerts.”

Power up your dark web & supply chain defense today
